

Lunchtime Science Club

Sponsored by Wellington PTA and PACE

Science Around the House

Did you know that science is all around us, even right at home? This year's Lunchtime Science Club will show you where to look! Join the fun and you'll be looking at ordinary household objects in new and exciting ways.

Science Club Schedule:

Lunch Recess

January 5th* to February 9th

Tuesdays: Kindergarten & 1st Graders

Thursdays: 2nd - 6th Graders

*January 5th all students can participate in Science Club under the covered walkway near the playground during both primary and intermediate lunch-recess.

Volunteers will guide students through a series of fun, interactive small-group experiments that will encourage questions and critical thinking and help demonstrate how the principles of science are around us everywhere.

This science program is FREE and ALL students are encouraged to join.

Parents, you can help make this program a success by encouraging student participation, as well as VOLUNTEERING to help. No science experience is necessary. If you love to help kids learn in fun and exciting ways then you are qualified! Training will be provided to all volunteers.

Please return student and volunteer registrations to the school by December 2, 2011

Student Registration

My student _____ in _____ has my permission
name teacher/grade

to participate in the 2012 Lunchtime Science Club.

Parent/Guardian Signature _____

Parent/Guardian e-mail _____
